## ISLE OF PINES AFFAIR

PROVISIONAL GOVERNMENT OF CUBA WILL HAVE NOTHING TO DO WITH IT.

### TEMPORARY GOVERNOR

AMERICAN MILITARY OFFICER MAY SUCCEED THE PRESENT CUBAN MAYOR.

Havana, Oct. 12.—The provisional government will have nothing to do with the question of the sovereignty of the Isle of Pines or with the separation of the government of the island from the rest of the Cuban republic. The executive authority of the United States already has declared that the Isle of Pines belongs to Cuba and has decided that affirmation in a treaty ceding the sovereignty of the Isle of Pines to Cuba, and this treaty is now pending ratification in the United States senate. The entire matter belongs to the adjudication of the United States department, the provisional government, which is wholly under the control of the United States department, will not mix therein. The mode of government of the Isle of Pines as part of the Cuban republic may be altered or amended, but the rights of Americans in the Isle of Pines as for territorial or municipal government as part of the United States are not to be conceded by any act on the part of the provisional government of Cuba or the war department.

The president of the American Association of the Isle of Pines has not interviewed Governor Taft on this matter, but the most that is likely to be gained will be the placing of an American military officer as temporary governor of the Isle of Pines in the person of a Cuban mayor, with whom the relations of the American residents has been pleasant.

The American residents of the Isle of Pines adopted unanimously a resolution that the Secretary of State Root and General Leonard Wood from all time in connection with the turning of the Isle of Pines to Cuba, and they feel that this step ought to open the way for negotiations for making the Isle of Pines American property.

#### Opportune Time for Settlement.

They consider the present condition of affairs opportune for securing a settlement of the matter, which they believe may hang fire indefinitely in the United States senate. Governor Taft has decided that the United States senators and congressmen be stopped with Oct. 12 when the Palma administration ended. He will decree the congressmen be in recess until the question of the status is settled.

Mrs. Taft and Mrs. Bacon held a reception in the afternoon in the main hall of the palace. It was attended by several hundred Cubans and others, including almost all the army and navy officers here.

The municipal band played American and Cuban airs in the park opposite the palace during the reception, which was informal and enjoyable.

Governor Taft gave a dinner in the palace to the naval officers.

The battleship Louisiana will leave here Saturday afternoon for Norfolk, a Key West, with Governor Taft and his party on board. The Louisiana will be accompanied by the battleship Virginia with General Frederick Johnston on board.

The battleship New Jersey and the cruiser Minneapolis will sail for the birth today, followed shortly by the cruiser Newark. The cruiser Brooklyn and the battleship Texas will remain here.

With the arrival in Cuba of additional army forces, the marines now here will be gradually withdrawn.

#### FAIRBANKS' SON ELOPES.

Married at Steubenville, O., to Daughter of Pittsburgh Man.

Steubenville, O., Oct. 12.—Announcement is made here that Frederick Cole Fairbanks, son of the vice president of the United States, eloped from Pittsburgh with Nellie Scott and, coming here, were married. It is stated that Mr. Fairbanks objected to the marriage.

The bride is the daughter of a prominent East Side resident in Pittsburgh.

#### VICTIMS LIVED IN ST. PAUL.

Two Men Killed and Five Injured in Montana Accident.

Livingston, Mont., Oct. 12.—Two railroad workmen were killed and five injured at Hoppers, nine miles west of Livingston, by the fall of a trestle. Three of the injured may not recover. The names of the victims cannot be secured. It is said their homes are in St. Paul.

### TUNNEL IS A DEATH TRAP.

Three Killed in Fire in Pennsylvania's Works.

New York, Oct. 12.—Three men died of suffocation and fifteen others were partly overcome by smoke and narrowly escaped death in a fire in lock O, near the East avenue shaft of the Pennsylvania tunnel in Long Island City. The dead are:

George Chapman, walking boss for contractors; Joseph Peers, tunnel foreman; Michael Daly, lock tender.

The cause of the accident is not definitely known. There was a sharp explosion. The twenty-pound pressure in the locks gave assistance to the blaze so that it spread quickly, accompanied by great volumes of smoke. The men ran pell mell toward the shaft, leaving their three comrades unconscious and dying.

After the rescues were made the fire department soon extinguished the blaze with little difficulty and the bodies of the three victims were recovered.

#### MISUNDERSTANDING OF ORDERS.

Results in the Death of Six Men in Train Wreck.

Cheyenne, Wyo., Oct. 12.—Six men were killed in a head-on collision on the Union Pacific railroad at Ridge, near Laramie, Wyo. The dead are:

Engineers Thomas Strong and John Murphy, Firemen Thomas Harstrom and George Kelley, Brakeman L. H. Meyers, Fireman H. C. Simms.

The collision was due to a misunderstanding of orders. The engines of both trains were demolished.

### NATIONALS DEFEATED

#### AMERICAN LEAGUE TEAM WINS

THIRD GAME OF CHAMPIONSHIP SERIES.

Chicago, Oct. 12.—The third game between the Chicago teams of the National and the American leagues was a battle royal between pitchers, and the American league team won, 3 to 0.

Twenty-one batsmen struck out and for twelve of these the credit goes to Walsh. In addition he gave only one pass and allowed but two hits, in the first inning. Thereafter the Nationals, until the ninth inning, never had any sort of a chance to score.

According to the official count, 12,750 enthusiasts, encouraged by slightly warmer weather, were present when the game began. Pfeister, the left-handed pitcher, went into the box for the Nationals. His control at first was good, but by no means perfect. He quickly steadied, however, and pitched superbly until the sixth inning. It was here he went to pieces and the game was lost. Tannehill, a weak batter, singled down the third base line. Somewhat discouraged, Pfeister allowed Walsh to walk and then hit Hahn in the nose, breaking it. A doctor was called and O'Neil went to first for Hahn, and finished the game for him.

The bases were now full with nobody out. A pandemonium of cheers from American league sympathizers broke loose. Pfeister pulled himself together and there was a sigh of relief from the National supporters when Captain Jones fouled out to Kling.

#### Rohe Bats in Winning Runs.

Isbell, one of the team's best batsmen, struck out for the third time. Then came Rohe, the substitute, to bat. It was this young man whose accidental presence by reason of Davis' illness in Tuesday's game brought victory to the Americans. Again the fate of the game depended on him and again he did not fail.

He waited patiently for a ball that suited him and swung with all his strength. The ball bounded swiftly down the third base line and under the benches in left field. Tannehill, Walsh and O'Neil crossed the plate amid wild cheers, while Rohe stood on third base receiving the congratulations of his teammates. Donohue sent a weak fly to Evers and the agony was over.

On their part the Nationals started out like winners. In the first Hoffman sent a clean single to center. Shreckard struck out and then Hoffman killed all chances to score by trying to steal second, where he was thrown out. The next moment Schulte doubled to left, but it did no good, for Chance went out, Isbell to Donohue. Thereafter till the ninth the Nationals never gave a hint of designs on the home plate. Walsh held them completely at his mercy. In the ninth Gessler managed to reach third on a fumble, an out and a steal, but none of his teammates could make the hit necessary to bring him home and when Schulte fanned the game was over.

#### Japanese Officials Expelled.

Mukden, Oct. 12.—Japanese officials have been expelled from the Russian sphere in Manchuria but merchants are admitted. Japanese Consul General Hagiwara has gone to Harbin to demand an explanation.

## COLD WAVE IN EAST

ALL RECORDS BROKEN FOR THIS SEASON OF THE YEAR IN SEVERAL SECTIONS.

### STORM COVERS A WIDE AREA

DAMAGE TO RICH FRUIT BELTS OF NEW YORK STATE SAID TO BE INCALCULABLE.

Washington, Oct. 12.—A cold wave swept over the East and South Thursday and broke all records for this season in many sections, but the weather bureau announces that while the temperature would rise "only slightly" Friday, there will be warmer weather Saturday and by Sunday seasonable temperatures will again prevail East and South. In many sections the severe cold snap was accompanied by snowfall and a storm of snow and sleet that raged in Upper New York state, particularly, caused great damage, wrecked telegraph and telephone lines and interfered with other traffic.

In some places it is already getting warmer. Down along the Blue Ridge mountains in Virginia was the coldest of the country and at Mount Weather, the government observing station in the mountains, sixty miles southwest from here, the mercury was down to freezing, while four below freezing was scored at Elkins, W. Va. North of Lake Superior was another cold section and at White River the thermometer registered 28 degrees above.

#### WORST IN MANY YEARS.

Storm of Snow and Sleet Sweeps Over Buffalo.

Buffalo, N. Y., Oct. 12.—The storm of snow and sleet that swept over this part of the country was the worst in many years. Telegraph, telephone and trolley lines were prostrated in all directions. The storm covered a wide area, including Ontario, Western New York and Northern Pennsylvania. The damage to the rich fruit belts of Chautauque, Niagara and Orleans counties is incalculable. Whole orchards of peach trees and other small fruits were crushed to the ground by the wet, clinging snow, which fell steadily for many hours. The weather now is clear and cold and the lines of communication are being slowly re-established.

Buffalo bore the brunt of the storm. The damage in this city alone is not far from a quarter of a million dollars, and two deaths occurred which were directly due to the effects of the storm. All night the telephone and electric light system were paralyzed. The streets were littered with broken wires. The street cars stopped running at times.

Reports from all sections of Western New York tell the same story of destruction. In Chautauque county, along the shores of Lake Erie, snow covers the ground to a depth of several inches.

#### Celery Crop Destroyed.

Kalamazoo, Mich., Oct. 12.—The celery crop in this section has been practically destroyed by the frost of the past two days. The growers were caught unawares and had failed to bank it. There are a thousand acres in celery. The loss will be heavy.

#### TRAGEDY ENDS HONEYMOON.

Bride Wounds Her Husband and Kills Herself.

Liberty, Mo., Oct. 12.—At Smithville, near here, Jesse Webb, aged twenty-five years, a son of a prominent farmer of Plattsburg, Mo., was shot and dangerously wounded by his wife, Mrs. Webb then shot herself through the heart, dying instantly. The couple had been married but one week, and were yet on their honeymoon trip.

Webb, who had been suffering from tuberculosis, became worse during the past few days. In a statement secured, he says that his wife and he had talked the matter over and decided "it was better to end it all."

#### Schooner May Be a Total Loss.

Rockland, Me., Oct. 12.—In a heavy gale the new four-masted schooner Helen B. Crosby of Bath struck on a ledge near the mouth of the Penobscot river and probably will be a total loss. Her captain and mate remained on board the vessel but sent the crew and Mrs. Wallace, wife of the captain, ashore.

#### Lone Bandit Holds Up Stage.

Tombep, Nev., Oct. 12.—Word has been received that the stage between Manhattan and Round Mountain was held up by a lone bandit Thursday two miles from Round Mountain. The bandit secured the express box, containing \$5,000, and all the money the driver and one passenger had.

### SILVEIRA STILL AT LARGE.

Cuban Banker Believed to Be Bound for Venezuela.

New York, Oct. 12.—Cablegrams to all parts of the world have been sent out asking the authorities to keep watch for Manuel Silveira, the Havana banker, who is accused of having absconded with more than \$1,000,000, thereby causing the assignment in this city of the banking and commission house of Juan M. Ceballos & Co., which failed on Wednesday with liabilities between \$2,000,000 and \$4,000,000.

It was announced here that Silveira is not on board the steamer Carmelina, in which he and his family sailed from Havana. It was said that the present whereabouts of the Carmelina are known and that the destination of the other steamer, to which it is said Silveira and his family were transferred two days out from Havana, has been ascertained.

William V. Rowe, receiver of the wrecked firm, said that every effort was being made to apprehend Silveira, who, he said, was a close personal friend of President Castro of Venezuela and had important financial relations with the head of the South American republic. Detectives have been employed to run down Silveira, Mr. Rowe said, and their opinion is that the Cuban banker will strain every nerve to reach Venezuela.

It is understood that detectives have already sailed from New York to Havana, from which city they will take up the search for Silveira.

#### More Than a Million Dollars.

William Nelson Cromwell of Cromwell & Sullivan, counsel for the receiver of Ceballos & Co., stated that the money taken by Silveira included \$600,000 which he had collected from the Cuban government on treasury warrants. Ceballos & Co. were heavy purchasers of these warrants, which were issued to the Cuban veterans after the close of the Spanish-American war. Some \$300,000 additional uncollected warrants were found in Silveira's safe, according to advices received by the Ceballos firm from Jose Beola, who is acquitted of any knowledge of Silveira's alleged wrongdoing. Another cable received from Beola indicated that the total amount alleged to have been taken from Ceballos by Silveira is about \$1,000,000. In addition to this \$200,000 in outside liabilities are reported.

That Silveira planned his sudden departure with much care is evidenced by the fact that the partner, Beola, received a letter five days after the sailing of the Carmelina. This letter was delivered to Beola by messenger and stated that he (Silveira) had departed for parts unknown.

#### DESIRE ANNEXATION.

Guatemalans Want Roosevelt to Annex That Country.

Mexico City, Oct. 12.—Dissatisfied with the existing conditions in their country, Guatemalan political refugees have applied to President Roosevelt to bring about annexation of that republic to the United States. A proclamation has been issued by the revolutionary junta in New Orleans and copies of this document are being circulated in the City of Mexico by the opponents of President Cabrera. The proclamation is as follows:

"To the American People:—The Stars and Stripes, the emblem of civilization, order and progress, is at this moment proudly waving over the land of Marti, Maceo and Maximo Gomez. The republic of Cuba will in the very near future be annexed to the United States.

"President Roosevelt ought to do the same with Guatemala. Over 10,000 of honest Guatemalans have had to abandon their homes on account of revolutions which almost daily are started to overthrow the infamous tyrant, Estrada Cabrera.

"We want Guatemala to belong to the United States of North America."

#### EXPERT CREATES SENSATION.

Says Signatures on Checks Not the Same as on Crawford Will.

Scranton, O., Oct. 12.—Declaring that the hand that signed J. L. Crawford's checks and letters never signed the alleged will and codicil held by George B. Schooley of Philadelphia, Handwriting Expert Kinsley of New York city created a sensation at the will contest hearing before Judge Sando. He was positive that the signature on the will and codicil had been stamped or drawn in and then inked over. Under the magnifying glass he showed the brown outline of the first signature and the irregular attempts made to cover this with ink.

#### Bank Looted by Its Manager.

Mexico City, Oct. 12.—The Jalisco bank of Guadalajara will lose \$800,000 as a result of the peculations of its recent manager. It is alleged that evidence is at hand to prove that the books have been falsely entered.

## Weather

Forecast—Fair and warmer tonight, Saturday probable showers with cooler west portion.

The democratic machine has been busy the past week endeavoring to keep the name of John W. Johnson, socialist candidate for governor, off the state ticket. This ought not to make the socialists of Minnesota particularly friendly to the democratic candidate. There are several thousand socialist votes in Minnesota.

SOME misguided people are attacking C. A. Lindbergh on the ground that he is an enemy of local business houses and industries, says the Little Falls Transcript. In some of his able writings Mr. Lindbergh has commented on the disadvantage induced by dealers in small cities, and by manufacturers and producers who were distant from the large and favored centers of business. The general theme of his articles has been to suggest some remedy for this that would add to the prosperity of the smaller cities and the country districts. He holds that the discrimination of transportation companies in favor of the big cities is a wrong that should be righted. Now he is held up as a supporter of the very evils he has so earnestly opposed. His comments on the bad conditions are now quoted to show that he approves of them. Mr. Lindbergh favors the small dealer, the small manufacturer and the farmer, and believes that proper legislation will bring to them a greater share of the country's prosperity. A careful reading of Mr. Lindbergh's writings will convince anyone that he is a friend of the small business community and the farmer.

## THE CONSTITUTIONAL AMENDMENTS

Three constitutional amendments are to be voted on the coming election. The first changes the constitution so as to give the legislature increase powers relating to taxation, and is considered necessary by those who have studied the matter so as to permit the legislature to make necessary changes to correct taxation abuses.

The second amendment gives the legislature power to create a state salaried highway commission and to increase the state tax for highways and bridges from one-twentieth to one-fourth of a mill.

The third amendment is one that will meet with general approval by all. It enables any person to peddle or sell the produce of his own farm or garden without getting a license to do so. Certainly everybody should favor this amendment.

All three amendments will be placed on a separate ballot with brief explanations of what they are.

## CAN'T BE SEPARATED.

Some Brainerd People Have Learned How to Get Rid of Both.

Backache and kidney ache are twin brothers.

You can't separate them.

And you can't get rid of the backache until you cure the kidney ache.

If the kidneys are well and strong, the rest of the system is pretty sure to be in vigorous health.

Doan's Kidney Pills make strong, healthy kidneys.

Ed. Dechaine, of 601 Fifth St., S. Brainerd, Minn., says: "Hard work brought on a disturbance of the kidney action and I suffered considerable backache at times. This condition led me to go to H. P. Dunn & Co.'s drug store when Doan's Kidney Pills were advertised and get a box, which I used according to directions. The backache was quickly banished and the kidney secretions were regulated. I gladly recommend such a valuable remedy to people of Brainerd."

## Overturned Boats.

"When a small boat capsizes," said an old river man, "the occupants should not try to climb aboard, but should lightly cling to it until help comes. Even a light canoe will in all probability sustain their weight until assistance arrives if they will only cling as lightly to its overturned sides as possible, allowing the body to float in the water, which it will do, and not under any circumstances attempt to bear down upon the canoe or to crawl upon the overturned bottom."

"This is where the fatal mistake occurs in nearly all boating drowning accidents. A single man with a good sized plank in the water can in his struggles and efforts to save himself push the plank beneath the surface of the water and drown then and there, whereas the same plank will support the weight of three men who are well posted and cool enough merely to grasp its edges with as little downward pressure as possible. A single oar has saved many a sailor's life in this manner, which a landsman would grasp, push it down in the water and go down with it.—Washington Star.

## The Cuddling Cook.

"I'd give a dollar," said the man who coddles his stomach, "to find a cook who doesn't measure. There used to be plenty of them. I remember the time when half the kitchens in the land gloried in a guesswork cook. Eating was a pleasure in those days. It isn't so now. In these whirling times everything has a machine made taste. That is because the cooks measure so much. Instead of trusting to inspiration, as the heaven born cook is bound to do, the kitchen queens of today measure even the salt they put in the porridge. No wonder such cookery lacks individuality and is all on the same dead level of mediocrity. Merciful heavens, what ails these biscuits? They're heavy as lead."

"I think the cook made a mistake," said the man's wife. "I got a new one yesterday—one that doesn't measure. I am afraid she didn't put enough baking powder in the biscuits."—New York Sun.

## OPPORTUNITY

Wise men have said that opportunity knocks once at every one's door, yet how few of us are wise enough to take advantage of it when it comes to us.

It was Mr. W. W. Frazer, 1307 Burroughs St., Lafayette, Indiana, who heeded the advice of the wise men and who now tells the following story: "About a year ago while in Louisville, I was attacked with rheumatism and suffered terribly. Mr. L. T. Cooper, the famous philanthropist was there at the time and I heard so much of his medicine that I bought two bottles of Cooper's New Discovery and began taking it."

"I had been laid up for some time but at the end of one week after taking the medicine I went back to work. I have not had a sign of rheumatism from that day to this and I consider it the most wonderful rheumatism medicine I ever heard of."

This is the medicine with which Mr. Cooper has been accomplishing remarkable results in cases of rheumatism, catarrh, deafness, stomach and kidney troubles. It drives every trace of poison from the body and sends rich, pure blood surging through the veins.

Cooper's New Discovery sells for one dollar per bottle. Cooper's Quick Relief the assistant remedy costs fifty cents. Both are obtainable from H. P. Dunn & Co., Mr. Cooper's special agents in this city.

## SCHOOL PUPILS

### CROP CONTEST

Crow Wing County Contest will be held in Court Room in Brainerd.

ON DECEMBER 7TH AND 8TH

Superintendent Wilson Issues Instructions for Contestant as to Exhibits.

The contest for the pupils of the Crow Wing county schools in the growing of farm crops which was inaugurated last spring will be held in the court room in the court house in Brainerd on Friday and Saturday, Dec. 7 and 8, 1906. Superintendent Wilson has issued the following instructions for the contestants:

"WHEAT—One quarter acre to have been raised.

"An exhibit shall consist of one peck of selected grain and twelve selected heads with stalks at least six inches long. Make a small bundle of the selected heads, tie the bundle loosely just below the heads and tightly at the base of the stems. The peck of grain should be free from all dirt and seeds other than wheat. Pupils should grade the wheat carefully by hand or with a good fanning mill.

"OATS—Same as wheat.

"CORN—One fourth acre.

"Select the ten best ears out of all those grown on the plot of land devoted to this contest. Leave the husks on but stripped back and the ears tied in a bunch or bunches. Pupils should present with their exhibits a written statement showing (1) kind of soil, (2) how cultivated and enriched, (3) kind of seed (name), (4) when sown or planted, (5) when ripe, (6) when harvested, (7) season favorable or unfavorable, (8) yield of the one fourth acre."

There will be ten prizes given on each grain, the prizes being \$3.50, \$3.25, \$3.00 \$2.75, \$2.50, \$2.25, \$2.00 \$1.75, \$1.50 and \$1.00. The winners of the first, second and third prizes in each grain are eligible to contest for state prizes in St. Paul in January 1906.

The Northern Pacific railroad has in addition offered free transportation to St. Paul to the winners of the first prize for each grain.

Henry E. Jones, of Tampa, Fla., writes: "I can thank God for my present health due to Foley's Kidney Cure. I tried doctors and all kinds of kidney cures, but nothing done me much good until I took Foley's Kidney Cure. Four bottles cured me, and I have no more pain in my back or shoulders. I am 62 years old, and suffered long, but thanks to Foley's Kidney Cure I am well and can walk and enjoy myself. It is a pleasure to recommend it to those needing a kidney cure." H. P. #### Everybody Wants This

A special agent of the Great Eastern Casualty and Indemnity company of New York, Mr. C. W. Woodford, of St. Paul, called on us this week on his annual visitation, when we were pleased to renew our accident policy, the \$1,000.00 policy allowing \$15.00 weekly indemnity and carrying with it the registration and identification of the American Registry company, of Washington, D. C., with protection to keys all for \$3.00 a year. At that price but one policy is allowed to any one person. \$110,000 of this insurance was written in Crookston last year and those who fail to renew or secure a policy lose a golden opportunity.—Crookston Times.

Over a million dollars of this insurance has been written by Mr. Woodford alone since Jan. 1st. Over \$60,000.00 of renewals are now due in Brainerd. The agent will be in the city for a few days only. Don't fail to secure a policy when he calls. 1111

## Farm, Home and Garden.

Short, pointed statements of methods and results in Crow Wing county are requested for this column. Address all communications to Farm Editor, Box 1519, Brainerd, Minn.

Western Farmer: Some amusing developments take place at Washington when manufacturers of food products appear before the committee of the agricultural department entrusted with the duty of making regulations. One firm wants to know how it will be about the brands to be employed on lard products. He makes "pure leaf lard," also what he calls "pure refined lard." Investigation proves that the latter article is lard compounded with cottonseed oil. Under the definition to be given to the word pure by the government, it is nothing but a compound, and must be branded as such. "Pure refined lard" is a higher type of lard; a mixture of lard and cottonseed oil is a compound and the pure refined label would be a fraud. One caller wanted to know "How about the label 'Westphalia ham'?" He was pointed to a section of the law prohibiting misrepresentations as to origin of product. "But," he insisted, "there is a town of Westphalia in this country." He was asked if he really had that place in mind when he labeled his goods "Westphalia ham." His smile was faint. Like instances of deliberate misrepresentation and consequent fraud upon the consumer are many and it is these that are to be reached by the regulations on misbranding. They should be strict and definite and once made should be rigorously enforced. The consumers are entitled to that much protection from dishonest manufacturers.

There will be several amendments to the state constitution of Minnesota to be voted for at the coming election. There is one amendment especially that is of vital importance to every farmer in the state of Minnesota. It is the third proposed amendment and provides that any person may peddle the products of the farm or garden occupied and cultivated by him without obtaining a license therefor. There has been an effort in many cities and towns to prevent farmers from peddling vegetables or meat from house to house, the retail dealers having them arrested under the local ordinance requiring peddlers to pay license. The result of success in the efforts to prevent the farmer from dealing direct with the consumer would be to render it possible for retailers to place both the farmer and consumer at their mercy. If they could get together they could fix the margin on which all produce could be handled and the result would be that it would be the producer that would get the margin and the dealer the bulk of the price, while the householder would have to foot as big a bill as the retailer deemed best. The writer does not mean that it would always or often be done, but it would be possible to do so and the possibility of a farmer being prosecuted for selling to whom and at what prices he can get should be stopped forever. In the very nature of his business he must seek his customers as the customers cannot seek him, and he should have the unequivocal protection of the fundamental law of the state in doing so.

Another amendment that is of interest to the farmer as well as to all other citizens is that giving the legislature the authority to increase the state levy for roads and bridges from 1-20 of a mill to 1/4 of a mill on the dollar. The levy at the new rate would only amount to 25 cents on each \$1000 valuation and a large part of it would come out of the cities and be distributed on the country roads. Under the proposed amendment not less than 1/2 per cent. nor more than three per cent. of the funds can be distributed to any one county.

The cities of St. Paul and Minneapolis will thus be compelled to contribute heavily to the state fund, yet can get no more of it than the less wealthy counties.

There is a movement on foot to organize a Crow Wing County Good Roads association. Every farmer in the county as well as every business man is or should be interested in this subject, and the farmer more than the business man. It costs today more to bring a load of wheat from Midland or Emily to Brainerd than it does to send the same wheat from New York to Liverpool. While the farmer is paying tribute to the transportation trusts that he should not be compelled to pay, he is paying a much higher one to incompetence and lack of trained skill in the building and maintaining of country roads. Watch for the call and make it a point to be present at the organization of the association.

## BOILER MAKERS

### GET A RAISE

Wages of this Class of Workers At the Northern Pacific Shops Granted Advance

NOW GET 38 CENTS AN HOUR

Which is Half a Cent More than The Machinists Receive Per Hour's Work

The boiler makers, after quite an extended conference with the Northern Pacific Railroad company have secured a raise of wages to 38 cents per hour. There is said to be considerable rivalry between the machinists and the boiler makers, each trade believing that it is entitled to a shade higher wages than the other, under like conditions, and when the machinists got their raise a few months ago it was freely predicted that the boiler makers would also insist upon increased pay and they seem to have succeeded in their demands. The fact that the company is granting a raise at this season of the year would indicate that there is lots of work ahead for the winter.

## AMUSEMENTS

"The Illusion of Beatrice."

Maude Fealy, the talented young star, who is to be seen at the Brainerd opera house, Friday, Oct. 19th, in "Martha Morton's latest comedy, "The Illusion of Beatrice," has two distinctions of which she may well be proud. To be accorded the title of "the youngest dramatic star on the American stage" and to be designated "the most beautiful woman in the world" are possessions that are rare. Miss Fealy was the leading woman of the late Sir Henry Irving at an age when most young ladies are still in college. She was declared to be "the most beautiful woman in the world" by a jury of experts in Paris, last year, when the photographs of Miss Fealy were awarded the first prize in the contest for the world's most beautiful women. In "the Illusion of Beatrice," the author Martha Morton, has supplied Miss Fealy with a role that is suited to her girlish and pleasing personality. The play has scored a triumph wherever it has been seen and the manager of Miss Fealy, John Cort, will present the young star here, with a selected New York company and surrounded with a complete production.

The indications are that the appearance of Maude Fealy here will be one of the fashionable events of the season.

## NOT WITH STANDARD

MANHATTAN OIL COMPANY ONLY  
COMPETED WITH THE INDEPENDENT CONCERNS.

**PRESIDENT GIVEN IMMUNITY**

HE TELLS HOW HE ELECTED HIMSELF AND GIVES OTHER INTERESTING EVIDENCE.

Findlay, O., Oct. 12.—Evidence was brought out by the state in the trial of the Standard Oil company of Ohio for conspiracy against trade, showing the ownership of the Manhattan Oil company of Ohio to be in the General Industrial Development company, limited, of London, Eng. Also that the Manhattan, which buys and ships crude oil, does not compete with the Standard, but does compete with independent companies.

These facts were brought out in the testimony of F. T. Cuthbert, president of the Manhattan. A similar criminal suit to that on trial is pending against his company and he testified under the order of the court, which renders him immune from future criminal prosecution. This course was taken at the suggestion of the prosecution, on the appeal of Mr. Cuthbert to the court for protection.

The witness was summoned and ordered to bring the books of his company showing the record of stockholders' meeting. The books were produced. The record of the last annual meeting showed that Mr. Cuthbert had been elected president by voting under power of attorney 1,495 shares of stock owned by the English hold company; that this comprised the entire stock of the company with the exception of five shares, of which one each is held by the president and four directors of the company, who are all residents of Lima, O., the home of the company. Mr. Cuthbert said he had been president since 1903 and that he had held the same power of attorney since that time. He knew nothing about the English company, had never seen anyone connected with it, but had corresponded with J. W. Francis, its secretary, and W. W. Johnston, its managing director, whose addresses were London. He remits money to them. Mr. Cuthbert said he had been connected with the company about eight years.

**Did a General Oil Business.**

Explaining the nature of business done by the Manhattan, Mr. Cuthbert said that before he became its president, the company did a general oil business, that it owned producing properties, pipe lines and a refinery at Galatea, O. It had disposed of all but its pipe line to the Ohio Oil company, but he did not know who was now operating the refinery at Galatea. The Manhattan company now does exclusively a pipe line business. In doing it, it buys the oil of the producer, transports it to storage stations and sells it to S. P. Trainor, purchasing agent for the Standard, who also buys oil from Joseph Seep, treasurer of the Buckeye Pipe Line company. In what is known as the South Lima field, where the Manhattan and Buckeye Pipe lines both buy oil, the price paid to the producer is five cents a barrel less than in the North Lima field, where what are regarded as the independent companies make their purchases.

Mr. Cuthbert admitted he paid 5 cents a barrel more for oil in the North Lima field than he received for it from the Trainor purchasing agency. This he said was to protect his pipe lines from encroachment of competitors. He admitted that the profits of his company in the North Lima field were very small if any.

Prosecutor David asked the witness about the purchases in the Indian Territory covered by the pipe lines of the company. He said the Sun Pipe Line company and the Indiana Pipe Line company were competitors in that field but the price there was the regular market price.

**SHOOT'S A FRIEND BY MISTAKE.**

Remorse Causes Indiana Man to Kill Himself.

Logansport, Ind., Oct. 12.—Remorse because he had shot his friend instead of a supposed enemy caused Pasque Shule to turn the same revolver upon himself and blow out his brains. Shule had been warned that enemies were on the look out for him and upon the approach of Dominic Peate, a friend, shot him.

**Four Seamen Drowned.**

St. Johns, N. F., Oct. 12.—The fishing schooner Julia struck a shoal in Cod Bay river during a gale and went down. Four seamen were drowned, but the captain succeeded in reaching the shore. The fishing schooner Helena is missing and it is feared that she and her crew have been lost.

**Gamblers Fight a Duel.**

Denver, Oct. 12.—James Thornton and E. Hofess, alleged gamblers, engaged in a pistol duel in the offices of a brokerage company and Thornton received a wound in the abdomen which may prove fatal. Hofess was shot in the right wrist.

**COUPLE HAD QUARRELS.**

Dr. Brouwer Said He Intended to Sue for Divorce.

Toms River, N. J., Oct. 12.—That there had been quarrels between Dr. Frank Brouwer and his wife and that Dr. Brouwer had said that he intended to sue for a divorce, was the testimony given by Miss Elizabeth Hyer, sister of the woman for whose alleged murder the doctor is on trial.

Miss Hyer said that her brother-in-law had told her that incompatibility of temper made it impossible for him and his wife to live happily together and that he purposed to seek a divorce. According to Miss Hyer this was said by the doctor more than four years ago.

Surrogate Grovan of Ocean county testified the defendant filed an affidavit before him on Dec. 29 last, in which it was stated that Mrs. Brouwer's estate was valued at \$6,000, and that Dr. Brouwer and his two children were the beneficiaries. The placing of the surrogate on the stand was regarded as an attempt on the part of the prosecution to establish a motive for the alleged crime.

Just before adjournment was taken for the day Judge Hendrickson caused surprise when he declared to the jury that he had heard they had been talking to persons in the streets about the case. He said that if he heard of any such action again he would order an investigation with a view of having the guilty persons punished.

**FARMER'S WIFE SHOT.**

Her Brother-in-Law Is Suspected of Committing the Crime.

Winchendon, Mass., Oct. 12.—Mrs. Ira E. Wood, wife of a farmer here, was shot in the face at night and almost instantly killed. The charge of shot that struck her was fired through a window of her home.

Harry Wood, a brother-in-law, lives on an adjoining farm. He has been an inmate of an asylum for the insane. He borrowed a shotgun Wednesday and since then has not been seen. Officers have been ordered to arrest him.

**Administration Denounced.**

Helsingfors, Oct. 12.—The Constitutional Democratic congress has adjourned. At the concluding session a pronouncement denouncing Premier Stolypin's administration and all its work which was proposed by the central committee in an endeavor to placate the extremists, was adopted by acclamation amid great enthusiasm.

**In a Mexican Hat Store.**

Half a million straw hats is no uncommon sight to be met with at one time in the hat stores of Mexico. The hats are made of a long pampas grass which grows nowhere else in the world. It is specially cultivated for the hat industry. So rapidly are the hats made that some skilled workmen can turn out ten or a dozen a day, and they are then sent to all parts of the world. They cost about fourpence each to make, are retailed at from 1 shilling sixpence to 4 shillings and are so durable that it is not infrequently happens that those of an economical turn of mind make a single hat last ten years. —London Queen.
